April 6, 2012

TO: INTERESTED PARTIES

**SUBJECT: REQUEST FOR PROPOSALS (RFP) #600-11-601 Addendum #2
Alternative & Renewable Fuel & Vehicle Technology Program Outreach &
Marketing Campaign**

NOTICE IS HEREBY GIVEN THAT THE ABOVE RFP IS AMENDED AS FOLLOWS

1. RFP 600-11-601 Questions and Answers, page 11 of 17, answer to question #55, is hereby amended as follows:

~~A55: Bidders can charge for unloaded hourly rates up to the amount listed in Attachment B-1. Bidders cannot bill for rates higher than these unloaded rates. The loaded rates required in Attachment B-3 are solely for the purpose of evaluating the proposal.~~

The Contractor can bill for both unloaded rates and non-labor rates, but will be required to breakout the costs of labor into unloaded hourly rates and non-labor rates (e.g., fringe, overhead, profit), as required in the terms and conditions. The unloaded rates added to the non-labor rates (e.g., \$100 + 20%(\$100), where the fringe benefit is 20% of labor costs) should be equal to the loaded rate. The actual billable unloaded rates cannot exceed the unloaded rates listed in Attachment B-1. The actual billable non-labor rates cannot exceed the percentages listed in Attachment B-2. Attachment B-3 is used only to evaluate the proposal and will not be incorporated into the contract.

Attached are the following documents:

1. Revision of Questions and Answers received in writing from interested parties.

All further questions regarding this RFP must be administrative only and directed to the Contract Officer. To ensure timely delivery, proposals must be delivered to the Energy Commission Contracts Office with your company name on the outside and identified as RFP #600-11-601. **Proposals must be delivered no later than 3:00 PM, April 18, 2012.**

Except as herein amended, all other documents related to RFP 600-11-601 remain the same.

Sincerely,

Coco Worthy
